Conference Committee

Conference Chair

Janet Carter, University of Kent, UK

Program Chairs

Ian Utting, University of Kent, UK
Alison Clear, CPIT, Christchurch, NZ

Treasurer & Registrar

Cary Laxer, Rose Hulman Institute of Technology, USA

Working Groups

David Barnes, University of Kent, UK

Panels (and promo at ITiCSE 2012)

Elizabeth Adams, James Madison University, USA

Tips & Techniques

Karen Fraser, Higher Education Academy, UK

Faculty Posters

Stan Kurkovsky, Central Connecticut State University, USA
Monica McGill, Bradley University, USA

Student Posters

Roger McDermott, Robert Gordon University, Scotland

Proceedings

Michael Goldwebber, Xavier University, USA

Database Coordinators

Henry Walker, Grinnell College, USA
John Dooley, Knox College, USA

Evaluation

Amber Settle, DePaul University, USA

Website

Mark Wheadon, University of Kent, UK

Call for Participation

ITiCSE 2013, the 18th Annual Conference on Innovation and Technology in Computer Science Education, will be held in Canterbury, UK, hosted by the University of Kent. The conference is sponsored by the ACM Special Interest Group on Computer Science Education (SIGCSE). The conference program contains keynote lectures, paper sessions, panels, working groups, tips and techniques, courseware demonstrations, posters and exhibits.

The conference venue is Keynes College, located in the heart of the Canterbury campus of the University of Kent.

Submissions

We welcome submissions that deal with the use of technology in computer science teaching and learning, the practice of teaching computer science, and computer science education research.

The official language of the conference is English, and all submissions must be original work. The entire proceedings will be available in the ACM Digital Library. Visit the conference web site for the latest news and instructions for proposals and online submissions.

Papers (deadline: January 13, 2013)

Papers should be high quality, unpublished original work, related to one of the themes of the conference. Submissions must be no longer than six pages. Accepted papers must be presented by at least one author and will be published in the conference proceedings.

Panels (deadline: January 13, 2013)

Panels allow experts to discuss and explore a current hot topic in computer science education. Panel organizers are responsible for selecting appropriate panelists to participate, obtaining position statements from the panelists, and integrating the statements into an abstract before submitting a proposal. Panel proposals are limited to two pages. Accepted abstracts will be published in the conference proceedings.

Working Groups (deadline: January 13, 2013)

Working Groups are formed by participants with a common interest related to one of the conference topics. Working groups convene and begin activities during the weekend prior to the conference (29 – 30 June), and continue their work throughout the conference. Participants present their results to conference attendees at a special working group presentation session, and submit a final report after the conference concludes. Final reports are refereed and, if accepted, are published at least in the ACM Digital Library.

Tips, Techniques, and Courseware (deadline: March 15, 2013)

Tips, Techniques, and Courseware sessions provide an opportunity to share practical ideas, specific assignments, pedagogical tools, methods of assessment, class activities or software / courseware that support learning in computer science. Participants will give a short presentation in which they will describe the tool, its goals, application and results. A brief demonstration may also be included. A one-page summary of accepted proposals is published in the conference proceedings.

Faculty or Student Posters (deadline: March 15, 2013)

Faculty or student posters present work currently in progress. A one-page summary of the accepted posters will be published in the conference proceedings.

Exhibits

Exhibits will be made available to publishers, software houses, and other interested vendors. Interested parties are invited to contact the conference organizers for information about presenting an exhibit at the conference.
