

Make sure all questions and answers are posted so students can see mistakes as well as good solutions.

SOH lecture.

↳ lab/tutorial before

↳ homework - SOH

↳ SOH advanced lecture

↳ immediately - (first SOH lab.)

* groups; set questions + agree group solutions
submit to tutors for "vetting + uploading"

(maybe set 8 for us to choose 6?)
or whatever.

during week - tutors give feedback on questions } students
set up peer assessment? - of empty spreadsheet } do SOH 2
+ set up/publish/copy questions ready for lab. } sheet as
prep for next week

↳ next lecture

↳ (second SOH lab) → some groups
solve questions set by other groups
do (peer assessment) → rating, scoring.

PRIZE(S) - best questions
- best solutions.

week 6/7 scheduled for SOH labs - week 6 is disciplinary common -
shift down a week and do something else first?

* use 1/2 hour (first or last?) to discuss what's
difficult about SOH etc
bring out concepts

could even get each to rate each ^{of our} questions for difficulty
and put up results of that as basis for discussion.

if there is a short paper about learning SOH could get them to read
that before discussion.
