

**University of Abertay Dundee  
School of Computing and Engineering Systems  
Post-Assessment Verification Report**

Module tutors fill in top, give to moderator along with the marked assessments and the marking scheme.

Module Code: SA0951A	Module Title: DATABASE DESIGN & IMPLEMENTATION
Name & Type of Assessment Unit(s): TEST + PORTFOLIO	
Module tutor(s): L. BALL	Moderator: A.W. WARELIN
Session: 2009/10	Semester: 1
Diet: Main	<input checked="" type="checkbox"/> Resit <input type="checkbox"/>

Explanatory notes<sup>1</sup> (e.g. describe how moderation of marking was carried out for each piece of assessment)

Moderators should use one of these forms to summarise their commentary on the marked assessments associated with the module. If moderating units at different times, use separate forms. Give brief answers to all the questions below, and date them. If necessary, revisit the assessments after reconsideration by the module tutor, and record any new commentary (dated). If agreement with the module tutor cannot be reached, the matter should be referred to the divisional leader.

Date on which material was first submitted for moderation:	9/3/10
Is there evidence that each part of the assessments has been marked? For example, on each examination script is there evidence that every page has been seen by the marker?	Yes
Is there a clear indication of the marks/grades assigned to students' work?	Yes
Is students' work marked according to the marking schedule?	Yes
Is students' work marked consistently (i.e. did the marker(s) make similar decisions about similar answers)?	Yes
Have the marks/grades for each student been added/graded correctly?	Yes
For coursework: Has constructive feedback been given?	Yes
Moderator: Do you require to revisit these assessments?	No
Module Tutor's reply to moderator's comments	

**Final Approval**

Moderator's Signature *A.W. Warelin* Date 11/3/2010  
 Module tutor's Signature *L. Ball* Date 13/3/2010

**Copies of all completed forms must be lodged in the module box.  
 Module tutor: remember to enter date and type of feedback given to students in MOSY.**

<sup>1</sup> The **minimum** requirements for moderation of marking are:

- All examination scripts have been scrutinised by a second member of academic staff to ensure that all students' work has been marked and that no errors have occurred in summation of the marks. [This must be indicated on every script].
- Coursework assignments weighted as up to 5 module credits have had sample assignments scrutinised by at least one other suitably experienced member of staff.
- All coursework assignments at Levels 9 and above weighted as more than 5 module credits have been subjected to sample double marking and all coursework assignments at Level 9 and above weighted as more than 10 credits have been double marked.
